

Tom Huff

Most recently Tom was the Chief Safety Officer at a large aircraft manufacturer and continues to be a prominent industry aviation safety advocate. Tom is a retired Naval Officer and Aviator with over 28 years of operational, test and acquisition experience. Chief Executive Officer for U.S. Navy's largest aviation test organization, TOPGUN graduate, combat veteran, and experimental test pilot with 7,000 flight hours in fixed and rotary-wing aircraft.

He led an FA-18 squadron, the U.S. Naval Test Pilot School, and was the Wing Commander accountable for Navy and Marine Corps test programs at Patuxent River, Maryland. Tom earned a degree in engineering from the U.S. Naval Academy, and master's degrees in Aviation Systems and National Security.

He is a Fellow in the Society of Experimental Test Pilots (SETP), Chairman Emeritus and Executive Director of the Flight Test Safety Committee, former Chairman of the NBAA Safety Committee and current Chairman of the Flight Safety Foundation Business Advisory Committee.
