

## **Stewart MacPherson**

Stewart spent 22 years as an Operations Manager, managing the daily operations of the customer service and Line Crew teams for InterDel Aviation Inc. He has developed and implemented policies and procedures and implemented strategies for improvement in Quality Control.

He became Senior Manager of the same operation in 2014, responsible for the coordination and development of safety and initial and recurrent training of operational and customer service employees, including at satellite location operations. He reviewed the SMS in conjunction with the Accountable Executive to review Safety Goals, SPI's and Risk Tolerability. Stewart provided Ground Handling Training, FBO Operations consulting, IS-BAH audit preparations and third party IS- BAH audits in his role as Audit Manager. Overall, Stewart has over 30 years of experience in the aviation industry.

Stewart is an accredited IS-BAH Auditor and has conducted over sixty IS-BAH audits to date. Stewart has been working on the WYVERN audit team since September 2018 and is motivated into helping organizations achieve their potential in safety management.
